PROFILE

I am an enthusiastic Information Technology undergraduate at KDU with a strong interest in full-stack development and mobile application development. I enjoy building innovative solutions and continuously improving my technical and problem-solving skills through practical projects.

PROJECTS

Ananda Auto Motor project

Company Website & Mobile Application

- Developed a responsive company website and a cross-platform mobile application.
- Designed user-friendly interfaces and integrated backend services for real-time data handling.
- Worked on authentication, database management, and deployment.
- Technologies: React, Flutter, Firebase

Softlogic-life Admin project

Employee Management System

- Developed a full-stack web-based employee management system with dashboard, department, and employee modules.
- Implemented CRUD operations, role-based functionalities, and REST API integration.
- Designed responsive UI and ensured efficient database management.
- Technologies: Spring Boot (Java), MySQL, React

PETHUB Mobile App

Smart Pet Care & Community Mobile App

- Implemented an AI-powered meal plan generator and AI pet chatbot to provide diet recommendations and basic pet care guidance.
- Built a social networking platform for pet owners to share posts and connect for breeding and knowledge sharing.
- Integrated vaccination reminders and location-based pet services to find nearby pet hospitals, shops, and boarding places.
- Technologies: React Native, Spring Boot, PostgreSQL
